## Rules and Regulations No.12 APPLICATION OF ELECTRIC SERVICE RATES

### A. Application

1. Bills for electric Service will be computed in accordance with the electric Service rates adopted by the City Council and applicable to the class of Service supplied to the Customer as further described in "Lodi Municipal Code" Section 13.20, Article III.
2. Copies of all effective electric Service rates are available for public inspection at the LEU's offices at the Municipal Service Center and at the Finance Department at City Hall.
3. Unless specifically provided in a rate, all rates of the City are applicable only for Service supplied entirely by the City without interconnection of the Customer's facilities with any other source of supply.
4. The City will take measures as may be practicable to inform all Customers who may be eligible for Service under new or modified electric Service rates.

### B. More Than One Electric Service Rate Applicable

1. When more than one rate schedule is applicable, the City will assist the Customer or Applicant by making a reasonable effort to determine which applicable rate schedule will result in the lowest charges for electric Service. Such schedule will be granted to Applicant.
2. When a Customer requests a change to a different applicable electric Service rate when one or more electric Service rates apply, the change will become effective for Service rendered after the next regular meter reading following the date of notice to the City, provided the Customer's Service Equipment is capable of accepting potentially different City owned metering devices and such devices are available. The City will not be required to make a change in electric Service rates after the first change until 12 months of Service have been rendered under the schedule then in effect, unless a new schedule is authorized under the terms and conditions of the electric Service rates set forth in "Lodi Municipal Code" Section 13.20, Article III, or unless LEU has
